

The Daily Gazetteer.

MONDAY, DECEMBER 24, 1744.

Florence, December 1.

HE Austrian Army is supposed to be arrived at Fano. A few Hours after Prince Lobkowitz went from Perugia, the Spaniards arrived there; where, at present, a Body of 10,000 Men remain under the Command of M. de Seve, a Lieutenant-General. The rest of the Army, with M. de Gages and

Duke of Modena, is at Ascoli, a small Distance from Fano. The Detention from the Austrians has been very sensible; the great Fatigue the Troops undergo by Marches, thro' excessive bad Roads, have probably contributed a good deal to it; but the Reward of Zetzing, which M. de Gages has promised to Delcetti, is a sufficient Inducement. That Army increases likewise by the Arrival of Troops from Legion of Naples, and by Recruits in the Pope's.

On the 15th past General Andreasi arrived here Pisa, on his Way to the Romagna; where the Instructions, consisting of about 2000, dismounted Dragoons, proceeded also from Pisa, Parma, Scarpesia, and Marradi, to join Leckowitz's Army. On the 26th about 30 Mules, with Ammunition, &c. were sent from these Cities to the Tuscan Troops at Arezzo. The same Day General Brattwitz, attended by General du Chatelet, Cesalini, and other Officers, set out from hence for Arezzo, to take upon him the Command of the Great Troops posted on the Confines; on Notice, that a Detachment out of the Spanish Army was posted within the Distance of about two Miles from Borders of Tuscany, in pursuit of the Baggage, Arms, &c. of the Austrians. On the 26th the Austrian Army, consisting of Eight large Cannon, and 40 covered Wagons, arrived from Perugia at the Gates of Arezzo, with about 200 Sick; the whole escorted by 300 Men. A few Days ago a Party of Spaniards entered into this State, and seized a Part of the Austrian Chancery, on which General Brattwitz sent an Officer to the General to complain of it. Excuses were made, they did not know that the Place where it happened was within the Confines of Tuscany; but the Effects were not returned. On the 29th, the Second Battalion of the Italian Regiment of Foot Guards, with a Company of Corsicans, and some Partisans, arrived here Leghorn; and this Day proceeded on their March to Arezzo, to join the rest of their Regiment and Tuscan Troops; and a Battalion of the Militia Regiment of Sardinia began their March To-day from hence, to rejoin that of the Italian Foot Guards at Leghorn. From Arezzo we are informed, that on the 19th past, the Regiment from Piedmont arrived at Placentia, and to be followed by others. That of Sicily from Placentia was ordered to march to Modena. The Estates of respective Subjects of the Duchy of Placentia, in Spanish Service, who had not presented themselves in the Time prescribed in the last publick Notice, have, by Orders from the King of Sardinia, been confiscated. The same Forfeitures have attended the Estates of the States of Parma in the like Case, from which caused to be published, as above, by the Queen of Hungary.

Florence, December 14. The Prussians decamped this morning about Two o'Clock, and about Four appeared at Marckersdorff, in order to pass over the Extremity of the Saxon Territory. Col. Vizthum, who commands there, having caused Representations therupon to be made, General Rothenbourg promised him positively, that the Troops should not set Foot upon Saxon Ground. Lieutenant-General D'Arnim arrived a little before Six at Marckersdorff, and Time enough to hinder the Prussians in pursuing their March. After having placed some Batteries in the Entrance which leads to Marckersdorff, which is about 100 Paces from that Village, he took up with the Regiment of Rourowski, and three Batteries upon a neighbouring Eminence, and ordered three Pieces of Cannon to be pointed against the Prussian Army, because they were advanced about 3 or 400 Paces upon the Saxon Territory. At the same Time he gave his Notice, that his Avant Guard was upon the Borders of Saxony, and desired him to order them to retire, or that he should consider that Step as an Hostility against a Neutral Country, and should attack them, if he did not immediately put a Stop to it. General Einfield, however, to make excuses for the Mistake, which he

said was the Fault of the Guides, and very much against his Inclination. But, at the same Time, he ordered them to make strong Instances for Leave to continue his March only a Thousand Paces upon the Saxon Territory, which would bring him again into Bohemia. This General Arnim persisted to refuse, tho' General Einsiedel came himself, at last, to speak to him about it. Thereupon the Prussian General order'd the Troops to turn to the Right, in order to re-enter Bohemia, across the Country, and thro' rugged Ways, which retarded their March very much, and gave Time to the Uhlans of the Auxiliary Army to come up with them. They lost almost all their Equipages, and five or six Pieces of Cannon. General Arnim kept close behind them, till they turned to the Right towards Friedland, where they would probably arrive about Four o'Clock, having marched very light, without Baggage or Incumbrance; and being pursued by the Uhlans only, the Chevalier Saxe having retired, with all his Troops, to Reichenberg, to watch the Prussian Forces, who were assembling upon the Frontier of Silesia; and being greatly superior to his in Number, without this Precaution, might have intercepted him.

Ratisbon, December 14. After we had been a good while without any News from General Bernclau, he unexpectedly appeared in the Upper Palatinate, and issued Orders, dated Vichtach, December 9, to the Bavarian Bailiffs and Magistrates, for preparing Winter Quarters for the Austrian Forces which are to enter the said Province. One of those Letters, which was deliver'd two Days since to the Magistrates of Stadtamhoff, contains the following List of the several Austrian Regiments; viz. Bernes, Diemar, Lichtenstein, and Charles St. Ignon, Cuirassiers; Saxe-Goths, Dragoons; Charles of Lorraine, Neuperg, Leopold Daun, Hirsch, Waldeck, and Giulay, Infantry; Kalnicky, Hussars. The other Regiments under the Command of the said General Bernclau, are also therein specified; viz. Lanthieri and Portugal, Cavalry; Hildburghausen, Young Konigsegg, and Vivari, Infantry; Baronissi and Bartoloni, Hussars; besides all the Theyshians, 3000 Warasins, 2500 Carabians, and 700 Sclavonians. The Magistrates of Stadtamhoff are thereby enjoined to send, without Delay, Deputies to Vichtach, to make the Repartition of Quarters for all those Troops; in Failure whereof, the Town is threatened to be reduced to Ashes. The Inhabitants being in the utmost Consternation, carried the said Orders to the French Commandant, Marquis de Crusso, who gave them to understand, that they ought not to pay any Regard to them, since he was able to protect them; but this has been so far from abating their Consternation, that they are preparing to bring their best Effects into this City for Security. The French have, indeed, been reinforced with one Company of Grenadiers; but, in all Appearance, they are preparing to march off. Some Hundreds of Austrian Irregular Troops entered last Week the Town of Deckendorf, during a Fair for Cattle, and carried off 270 Oxen, some of which belonging to the Butchers of Freisingen (an Episcopal City, of which the Prince of Liege, the Emperor's Brother, is Bishop) were given up again by them. The above said Austrian Regiments design'd for the Upper Palatinate, having actually begun their March out of Bohemia on the 6th Inst. it will soon appear, whether the 15,000 French and Bavarians will continue their intended March to Amberg. Our last Letters from Bohemia are of the 9th Instant, from Opotschno.

LONDON.

The French Minister to the Court of Moscow, M. D'Allion, has thought fit to leave all his Equipage at Riga, rather than submit to have it search'd; which was the more extraordinary, because the British Ambassador, Lord Hyndford, submitted to it without the least Difficulty. M. D'Allion himself, however, has proceeded to Petersbourg, there to wait the Return of the Court.

According to private Letters from Geneva, the whole Spanish Army that returned out of Piedmont, did not

consist of above 2000 Men; and the seven Battalions that first enter'd Savoy, consisted of very few more than 300 Men a Piece.

They write from Paris, that a Courier w^s arrived from his Prussian Majesty, with the News that he had entirely quitted Bohemia, and was retired into Silesia, where he w^s on the Point of being attack'd by the Austrians, and therefore demanded the Performance of his most Christian Majesty's Guaranty, as well as of a private Article in their Alliance, by which 40,000 Men were promised, in case his Prussian Majesty should ever be molested in the Possession of that Duchy.

The same Letters inform us, that a great Naval Armament will speedily take Place in France, the King having made a Promotion of 50 Sea Officers at once. The Royal Palace of Muette is burnt to the Ground; and a Report is spread, as if the Prince of Conti was either to ill, or in so ill a Humour, as not to be in any Condition of coming to Court.

There are private Letters from Berlin, which say, that the Prince of Anhalt Dessau w^d not accept the Command of the Prussian Army, till his Majesty had promised that it should act entirely on the Defensive, and be absolutely under his Royal Highness's Command.

Admiralty-Office, December 22, 1744.
WHEREAS by an Establishment, which has been long in Force in the Royal Navy, a Schoolmaster is allowed to each of his Majesty's Ships of the Third, Fourth, and Fifth Rate, with the Allowance of Midshipman's Pay, and Twenty Pounds a Year besides for his Encouragement; but an Opinion having prevailed of late Years, that since the Erection of a Royal Academy at Portsmouth, for Educating and Training up Gentlemen Sons for his Majesty's Sea Service, the Establishment of Schoolmasters has been abolished; which Opinion being hurtful to his Majesty's Service, by preventing Persons from applying to be employed in that Capacity, and thereby depriving the Youth, who serve on Board his Majesty's Ships, of the necessary Assistance for perfecting themselves in the Art of Navigation: The Lords Commissioners of the Admiralty think proper to order this publick Notice to be given, that the Establishment of Schoolmasters on Board the Ships of the Royal Navy is still in Force; and that if Persons properly qualified, by having passed an Examination at Trinity House, will apply to this Office, they shall meet with all due Encouragement, and be warranted as Schoolmasters, on board such of his Majesty's Ships as may be in want of them. And that their Attendance at Trinity House, in Water-Lane, in order to pass an Examination, may be made as easy to them as possible, the Master, Wardens, and Assistants of that Corporation, upon any Person's offering himself to be examined, either on a Wednesday or Saturday (which are their Board-Days) and producing the usual Certificate, of his being a Person of a sober Life and Conversation, and well affected to his Majesty's Person and Government, will forthwith proceed to his Examination, and continue the same every ensuing Board-Day.

OR,
The most Powerful Restorative Confect in Nature.

FOR
IMPOTENCY in Men and BARRENNESS in Women.

IS delightful to the Palate, most agreeable and cordial to the Stomach, enriches the Blood, creates the Spirits, invigorates the Nerves, and perfects all the Animal Faculties, and Generative Power, in both Sexes, to such a Degree, as Words can scarcely express; and acts not only by a stimulating Quality, or blowing up the Stomach, but by adding a true Pabulum Ciborum, a kindly Fuel, by Nature is in a Manner regenerated, and so much Strength, Vigour, and Ability, immediately given, that Impotency, every Kind of Weakness, or Imbecility in the Male Sex, Barrenness, and all Sorts of Weakness, and Infirmities, of the Female Sex, are most infallibly and rectify cured by it, in a very pleasant and highly agreeable Manner, infinitely beyond what any other Remedy can accomplish. Decays of every Kind in either Sex, and all Sorts of Weaknesses, however occasioned, it almost instantly cures, when nothing else will, and can be had only, by the Appointment, at the Gentlewoman's at the Two or Four Haydon-Yard in the Minories, London, at Five Shilling Pot, with Printed Directions at large.

The so-much Fam'd HYPO-DROPS
WHICH in a few Days infallibly cure HYPOCHONDRIACK MELANCHOLY in Men, and VAPOURS in WOMEN, so as never to return again, being so severe, or of many Years standing, and even after Remedies have prov'd ineffectual, and that by immediately striking at the very Root or true Cause, as well as the Effects, of those perplexing Maladies and all their Symptoms, by which they mimick, by Turns, all the Diseases poor Mortals are afflicted with, and have a Rife from a depraved Appetite, vicious Ferment in the Stomach, and Indigestion of Food, whence proceed Crispian, flatulent or windy Disorders in the first Passage, ill Digestion, Belchings, Cholick, and Uneasiness in the Bowels, Crudities, offend the Nerves, and, by Convent of Particulars, the Head, and produce sometimes Giddiness, Dimness of Sight, confounded Thoughts, pertinacious Watchings, continual Sleep, Frights, groundless Fears, and the deeper Melancholy, with direful Visions and terrible Apprehensions; at times, Fits, Flushing Heats, Reachings, Faintness, Loss of Senses, and Sinking of Spirits, Palpitation of the Heart, Tremblings, and Twitchings in the Limbs and other Parts, with many convulsive Disorders, sharp Pains, fitful or enduring Pain and Weakness in the Back, and other innumerable and grievous Symptoms, which mislead both Sexes.

All which Symptoms, in their sharpest Paroxysms, the much fam'd and most pleasant Drops, (which are originally prepar'd from the most valuable Specifics in the Human Body, Vegetable, and Animal Kingdoms, and exalted to the highest Degree of Perfection possible,) infallably quell, and at the same time annihilate their real Cause, directly bringing the Stomach into right Order, creating a good Appetite, aiding the Digestion, occasioning laudable Chyle, and drawing good Blood, Plenty of calm, free, and cheerful Spirits, and a regular Circulation of all the Fluids, and Strength of the Body, so that both Cause and Effects of Melancholy and Vertigo are thoroughly removed by them, almost on the Spot, in many Thousands of both Sexes they have perfectly clystalized.

Whoever takes them for 3 Days only, will be satisfied, that they are absolutely to be depended upon for an effectual and lasting Cure, and certain it is, that no Medicine upon Earth can equal them; be careful therefore to have the right Directions, which are to be had only at Mrs. Holt's, at the Cross and Star in Cornhill, below the Royal Exchange, at 3d a Bottle with printed Directions at large.
